

# BEFORE BEGINNING A HIKE:

1. Good Water Trail is 26 miles long. It does not make a complete circle around the lake. Transportation, either by car or boat, should be arranged in advance.

2. Heavy footwear with strong ankle support is recommended.

3. Treatment of clothing for chiggers and ticks is recommended.

4. The only available water is located at Tejas Camp. Trail users are urged to bring their own water.

5. Good Water Trail crosses Hunt Hollow Wildlife Management Area. Trail users should exercise caution during hunting season.

6. Anyone using the trail is advised to check in and check out with the gate attendants at Cedar Breaks Park, Russell Park, and Tejas Camp.

7. Russell Park is closed from October 1 to March 31 each year. During this time, anyone parking on the county road outside the gate does so at his own risk.

Mileposts occur at one mile intervals along Good Water Trail. Numbers run sequentially from Cedar Breaks Park trailhead, beginning with milepost 0. Milepost 11 is located on the north side of West End Crossing. Milepost 16 is six-tenths mile from the Russell Park trailhead.
